

MAST Solutions

Top 10 Most Wanted Programs

- 1. Indirect Cost Allocation Program** (ICAP Version 2.0) \$795
Does automatic allocation of indirect costs to direct costs through the general ledger.
- 2. Overhead Cost Allocation Program** (OCAP Version 2.0) \$995
Does automatic allocation of shop, overhead and admin indirect costs to direct costs through the general ledger.
- 3. Payroll Burden Allocation Program** (PBAP Version 1.3) \$795
Makes an adjusting entry to payroll burden, to a fixed burden percentage. Allocation is made as an independent entry to job costs.
- 4. Cost to Complete Management Program** (CCMP Version 1.7) \$795
Makes cost to complete projections by cost code and cost type at any time during the lifetime of the job. Projections are then "aged" from the date of the project as costs are collected for the specific cost code and type.
- 5. General Ledger Budget Assistant Program** (GLBP Version 5.0) \$895
Assists a user by automatically filling in the monthly budget field in the Intuit™ Master Builder general ledger chart of accounts.
- 6. Proposal Writer Basic Program** (PWBP Version 2.3) \$995
Prints a complete, detailed and notated contract, cover letter, terms and conditions and other documentation directly from an estimate in Intuit™ Master Builder.
The formatted proposal can be exported to Microsoft™ Word for additional processing.
- 7. Cost Plus Billing Program** (CPBP Version 2.0) \$1495
Prints a detailed time and material invoice from actual job costs, offset against a pre-determined job budget. Includes standard invoices, progress billing format and sworn statement.
- 8. Over/Under Billing Management Program** (OUBP Version 2.0) \$795
Extracts to Microsoft™ Excel from Intuit™ Master Builder all costs, billing, and change order information needed to review and automatically adjust over/under billing for a given period. Allows the user to automatically create an appropriate over/under journal entry in Master Builder after review and adjustment in Excel.
- 9. Progress Billing Management Program** (PBMP Version 2.0) \$795
Provides a list of pending progress billing and moves created or approved change orders in real-time to the next open progress billing record. Removes requirement to supply unique cost codes or divisions to change orders to show as separate line items on the progress bill.
- 10. Union Report Management Program** (URMP Version 1.5) \$1495
Prints complex union reports from Intuit™ Master Builder data.
This is the base program - there are many add-on, union-specific forms available for this tool.
